

ACCOMMODATION

Parallel with their pharmacy studies, students complete modules focusing on general business skills, including International Business, Accounting, Human Resource Management, and Corporate Finance.

Students gain valuable business knowledge and skills, which could benefit them in their future work.

Credits earned in this program enables pharmacy students to directly enter into different business master's programs after graduation including:

Those who come from a country subject to visa requirements can register for dormitory placement.

By the help of the apartment rental service of the Faculty, anybody can easily find the best flat for their years spent at our university in Pécs.

PHARMACY (PHARM.D) WITH SPECIALIZATION IN BUSINESS SKILLS AND ECONOMICS

SCHOLARSHIP

Tuition Fee Reduction Scholarship
We believe that student excellence and progress should be rewarded. To support hard working tuition fee paying students, the Faculty of Pharmacy will provide up to 60% tuition fee reduction each semester to those ranked in the top quarter of faculty students based on their overall performance and collected credits.

Apart from the tuition fee reduction scholarship, eligible applicants who are interested in applying to programs offered by our faculty can take advantage of:

- Stipendium Hungaricum Scholarship
- Scholarship for Christian Young People
- Visegrad Scholarship Program
- Hungarian Diaspora Scholarship
- ERASMUS+ and International Student Exchange Programs
